SECTION 'A' – READING SKILL (20 Marks)

I) Read the given passage and answer the following questions :- 10

All objects that exist in the sky are called celestial bodies. Sometimes, celestial bodies are also called heavenly bodies. Celestial bodies that we know about includes, the Sun, the Moon, Asteroids, Meteors, the Planets and the Stars. Stars are huge celestial bodies. They look small because they are far away from us. They are made of burning gases. When these gases burn, they emit a tremendous amount of heat and light. The star nearest to the Earth is Sun. It is about 150 million KM away. There are millions of stars like the Sun. The second nearest star is Proxima Centarri, which is 4-25 light years away from the Earth. If you look at the night sky closely, you will see clusters of stars. These group of stars are called constellations. The two stars at the ends are called pointers. The brightest star in the sky is the Pole Star or the North Star. The North star is almost directly above the North pole. People in ancient times used to determine the North direction at night with the help of the North Star.

- Q.1 Define Celestial bodies also give another name for 'Celestial Bodies'.
Q.2 What all things are included in Celestial bodies ?
Q.3 Why do stars appear small ?
Q.4 Which is the brightest star in the sky ?
Q.5 How did people in ancient times used to determine the North Direction at night ?

II) Read the given poem and answer the following questions :- 10

Our window is a magic frame,
With pictures never twice the same.
Sometimes it frames a sunset sky.
Where clouds of gold and purple lie,
And sometimes on a windless night,
It holds a great moon round and white.
Sometimes it frames a lawn and flowers,
Where children play through summer hours,
Sometimes a tree of gold and red
and grass where crisp brown leaves are shed.

Sometimes it shows the wind blown rain,
or snowflakes cold against the pane.
Our window frames lovely things,
That every changing season brings.

1. What is the shape and colour of the moon ?
2. Pick out 2 pairs of rhyming words from the given poem.
3. In what colours are the clouds described ?
4. Explain the phrase 'picture never twice the same'.
5. Give suitable word meanings for (a) Brittle (b) Sheet of Glass.
